Re: HDRC Case #2017-321: 415 Cedar St. – *King William District*
New Driveway and Landscaping
Certificate of Appropriateness

Dear HDRC Commissioners,

The King William Association Architectural Advisory Committee reviewed the project and concur with OHP staff recommendation for approval. There was no mention in the application of the existing curbs that run parallel to the existing driveway. We recommend that these curbs or new curbs be incorporated into the plan to direct storm water runoff to the street.

Best Regards,

Mickey Conrad
Chair, Architectural Advisory Committee

Chris Price
President, KWA Board of Directors
