Re: Case #2017-1892: 401 King William St. – *King William District*  
Certificate of Appropriateness – Accessory Structure

Dear HDRC Commissioners,

The King William Association Architectural Advisory Committee reviewed the project and concur with OHP staff recommendation for approval. We find that the two proposed landscape beds as shown on drawing sheet A1.0 that split the width of the driveway into two separated drives is appropriate.

Best Regards,

Mickey Conrad  
Chair, Architectural Advisory Committee

Chris Price  
President, KWA Board of Directors
