Re: HDRC Case #2017-435: 315 Stieren St. – *King William Historic District*

The applicant is requesting a Certificate of Appropriateness for approval to:

1. Remove one of two existing front doors.
2. Relocate an existing rear door.
3. Replace existing composition shingle roof with standing seam metal.
4. Install new landscaping and hardscaping in the front yard.

Dear HDRC Commissioners,

The King William Association Architectural Advisory Committee reviewed the project and concur with OHP staff findings and recommendations for approval with stipulations. We also recommend that the windows removed on the east elevation be restored or replaced with in-kind windows.

Best Regards,

Mickey Conrad
Chair, Architectural Advisory Committee

Chris Price
President, KWA Board of Directors
