Re: HDRC Case #2017-654 – 130 Wickes – *King William District*
Certificate of Appropriateness - Gutters, Porch Railing & Landscaping

Dear HDRC Commissioners,

The King William Association Architectural Advisory Committee reviewed the project and concur with OHP staff findings and recommendations for approval. Regarding the OHP stipulations and considering the railing requested is limited to the porch steps; we find that a wrought iron railing, as requested by the applicant, is appropriate. A detail of the rail should be submitted to the staff. We also take no exception to the K profile proposed for the gutters.

Best Regards,

Mickey Conrad
Chair, Architectural Advisory Committee

Chris Price
President, KWA Board of Directors
