1901 S Alamo St
San Antonio, Texas 78204

Re: Case #2017-2479: 222 Wickes St. – *King William District*

The applicant is requesting a Certificate of Appropriateness for approval to:

1. Replace four (4) historic, wood windows on the front façade of the historic structure with new wood windows.
2. Enclose the side porch opening, which has previously been a window opening.
3. Install a new front door.

Dear HDRC Commissioners,

The King William Association Architectural Advisory Committee reviewed the project and concur with OHP staff findings and recommendation for approval based on stipulations that the window sizes be restored to their original sizes and match the originals in material and profile.

Best Regards,

Mickey Conrad, AIA
Chair, Architectural Advisory Committee

Chris Price
President, KWA Board of Directors
